#### **Terminology**

Term	Meaning
Qualified Certificate for Electronic Signature or Seal	A qualified certificate for electronic signatures refers to "a certificate for electronic signature/seal, that is issued by a Qualified Trust Service Provider" and meets the requirements specified under the eIDAS Regulation (EU) No 910/2014.
Certificate's details	Details that are included within the certificate and prior to the issuance, they have been validated by the Qualified Trust Service Provider.
Timestamp	The timestamp server validates the date and the time that the file was signed therefore the certificate can expire but the signature will be valid for as long as the file is in production. A timestamp prevents digital signature backdating fraud and gives stronger proof of validity and authenticity.
Long-term Validity (LTV)	LTV (Long Term Validation) provides a record of what state the Certificate was at the time of signing. Long-Term Validation (LTV) can be used to validate a digital signature anytime in the future. It provides an additional layer of validation for long-term digital signature validation in PDFs and other documents. When a document is signed, the status of the signing certificate is captured and embedded within the PDF. This includes validity of certificate at signing time. This means that even if the certificate subsequently expires or is revoked, the signature remains verifiable using the LTV data to check the status at signing time rather than the current status.

   σφραγίδας, θα εμφανίζονται τα
   στοιχεία της εταιρείας

#### <u>Ορισμοί</u>

Έννοια	Ορισμός
Εγκεκριμένο Πιστοποιητικό Ηλεκτρονικής Υπογραφής ή Σφραγίδας	Το εγκεκριμένο πιστοποιητικό για ηλεκτρονικές υπογραφές αναφέρεται σε «Πιστοποιητικό Ηλεκτρονικής Υπογραφής/Σφραγίδας, το οποίο εκδίδεται από Εγκεκριμένο Πάροχο Υπηρεσιών Εμπιστοσύνης» και πληροί τις απαιτήσεις που καθορίζονται σύμφωνα με την Ευρωπαϊκή Νομοθεσία eIDAS (EU) No 910/2014.
Δεδομένα πιστοποιητικού	Στοιχεία που περιλαμβάνονται στο πιστοποιητικό και πριν από την έκδοσή του, έχουν επικυρωθεί από τον Εγκεκριμένο Πάροχο Υπηρεσιών Εμπιστοσύνης.
Timestamp	Η χρονοσφραγίδα επικυρώνει την ημερομηνία και την ώρα που υπογράφηκε το έγγραφο, επομένως αν το πιστοποιητικό λήξει, η υπογραφή θα συνεχίσει να είναι σε ισχύ μέχρι τη λήξη της Χρονοσφραγίδας. Η Χρονοσφραγίδα αποτρέπει την απάτη με ηλεκτρονική υπογραφή και παρέχει ισχυρότερη απόδειξη εγκυρότητας και γνησιότητας.
Long-term Validity (LTV)	Το LTV (Long-Term Validation) παρέχει μια καταγραφή της κατάστασης του Πιστοποιητικού τη στιγμή της υπογραφής. Η μακροπρόθεσμη επικύρωση (LTV) μπορεί να χρησιμοποιηθεί για την επικύρωση μιας ψηφιακής υπογραφής ανά πάσα στιγμή στο μέλλον. Παρέχει ένα πρόσθετο επίπεδο επικύρωσης για μακροπρόθεσμη επικύρωση ψηφιακής υπογραφής σε PDF και άλλα έγγραφα. Όταν ένα έγγραφο υπογράφεται, η κατάσταση του πιστοποιητικού υπογραφής καταγράφεται και ενσωματώνεται στο PDF. Αυτό περιλαμβάνει και την εγκυρότητα του πιστοποιητικού κατά την υπογραφή. Αυτό σημαίνει ότι ακόμη και αν το πιστοποιητικό λήξει ή ανακληθεί στη συνέχεια, η υπογραφή παραμένει επαληθεύσιμη χρησιμοποιώντας τα δεδομένα LTV για τον έλεγχο της κατάστασης κατά την υπογραφή και όχι την τρέχουσα κατάσταση του πιστοποιητικού.
