Installation User Guide for SafeNet 5110 CC USB token on Windows

Step 1: Download installation file

Note: The file download may take a few minutes. It depends of your network speed

- Check your Operating System version. To see if your operating system is 32bit or 64bit, follow the instructions of Microsoft <u>https://support.microsoft.com/en-gb/help/15056/windows-32-64-bit-</u> faq.
- Click the following links to download the drivers based on your OS version:
 - Windows 32bit <u>SafeNetAuthenticationClient-x32.msi</u>
 - Windows 64bit <u>SafeNetAuthenticationClient-x64.msi</u>

If you use different computers (Work, Home, PC, Laptop) it is necessary to install the drivers on each computer before using the USB Token.

Step 2: Install Drivers

Note: Please do not plug in the USB token to your device until the drivers installation is finished

• After you download the driver, run the file by double-clicking it in order to start the installation.

Click "Next"
